LANDIS+GYR EXEMPLIFIES STRATEGIC FORESIGHT BY DEMONSTRATING A COMPREHENSIVE UNDERSTANDING OF THE MEGATRENDS RESHAPING THE UTILITY SECTOR, INCLUDING DECARBONIZATION, DIGITALIZATION, ELECTRIFICATION, AND GRID.

**- GAUTHAM GNANAJOTHI,
GLOBAL VICE PRESIDENT OF
RESEARCH**

To receive the Company of the Year Award requires a company to demonstrate excellence in growth, innovation, and leadership. This excellence typically translates into superior performance in three key areas—demand generation, brand development, and competitive positioning—that serve as the foundation of a company's future success and prepare it to deliver on the 2 factors that define the Company of the Year Award.

As the energy sector becomes increasingly polarized over sources like fossil fuels, nuclear energy, and natural gas, utilities globally recognize the need for diverse solutions to tackle energy challenges. In this context, Landis+Gyr has made notable advancements by introducing its advanced Ultrasonic Gas Sensor. After successfully establishing this solution in the United Kingdom, the company is expanding to North America.

With its strong overall performance, Landis+Gyr earns Frost & Sullivan's 2025 Global Company of the Year Award in the advanced metering infrastructure industry.
